

# compact and versatile

**SA210** is a unique and versatile loudspeaker with a surprisingly big sound. It can be placed on the wall, hang down from the ceiling or stand on the floor. Your choice of accessories decides where it should be placed. Also available as centre channel speaker under the name of SA210AV.

SA210 is a noble representative of System Audio's technology because it shows that it is possible to obtain big sound from a compact loudspeaker. It is suited for all kinds of music and home theatre systems and has a high quality performance. Its magnetic shielding allows the SA210 to be placed close to a TV.

a really compact loudspeaker with a surprisingly big sound

a practical approach to quality sound SA210 in Black Ash mounted on the CB1 ceiling bracket
